

## Potato Research Open House Elora Research Station Crops Building

**Wednesday August 20, 2025**

Time: 10:00 am - 2:00 pm, rain or shine!

6182 2 Line E, Ariss, ON N0B 1B0  
43.64121893243137, -80.40462588224669

Anyone who is interested in the potato industry is invited to see the new variety demonstration plots and learn about current research. Chipping, fresh market and French fry types will be on display in the field. This includes elite selections from the National Potato Breeding Program-AAFC, promising lines from industry breeders and many more!

10:00-10:30: Coffee and welcome at the building

10:30-11:45: Tour of variety trial plots with **Vanessa Currie**

11:45- 12:30: Lunch provided at the building

12:30–2:00: Featured research presentations

➤ **Andy Colton**, School of Environmental Science.

*Semiochemical-Based Strategies for Managing Colorado Potato Beetle: Attraction and Repellency.*

➤ **Narges Atabaki**, Department of Plant Agriculture.

*Sustainable potato farming in Canada: Boosting soil health, productivity and climate adaptation.*
